

Bertrams is an independent, internationally oriented engineering company in the field of chemical plants. A total of around 120 people work at the headquarters in MuttENZ near Basel and the subsidiaries in Beijing, Shanghai and Mumbai. Our many years of experience and in-depth know-how in process engineering, design, international project management and procurement have made us the world market leader in the field of caustic soda treatment and recycling.

To support our sales team at our headquarters in MuttENZ/BL we are looking for an

Proposal Engineer

Main tasks

- Careful study of customer's inquiries to allow submission of quotations within set deadlines
- Elaboration of technical concepts and solutions
- Process design of the plant and its main components
- Obtaining and checking quotations from suppliers
- Preparation of cost calculations
- Preparation of complete offers, including technical specifications and commercial terms and conditions
- Technical discussions with our international customers
- Representation of our company in meetings and video conferences

Your profile

- Graduate Engineer in Process Engineering or Mechanical Engineering or comparable education with focus in plant construction and process engineering
- Minimum 5 years of professional experience in similar position in an international environment
- Customer-oriented with a solution-oriented attitude
- High resilience, flexibility and commitment
- Structured work style
- Business fluent in English (written/oral), further language skills are an advantage
- Good knowledge of common MS Office application including Excel

What you get

- Exciting, challenging and varied tasks
- Committed and dynamic team
- Advantages of a medium-sized company
- Attractive employment conditions in a modern working environment

We look forward to receiving your application (letter of motivation, CV with photo, references) at jobs@bertrams.ch
