

Bertrams is an independent, internationally oriented engineering company in the field of chemical plants. A total of around 120 people work at the headquarters in MuttENZ near Basel and the subsidiaries in Beijing, Shanghai and Mumbai. Our many years of experience and in-depth know-how in process engineering, design, international project management and procurement have made us the world market leader in the field of caustic soda treatment and recycling.

To support our team at our headquarters in MuttENZ/BL we are looking for an

Project Manager / Project Engineer

for international projects

Main tasks

- Management of international projects from detail engineering to acceptance of the plant by our international customers
- Responsible for all technical and commercial matters during project execution
- Working out technical details yourself (detail engineering)
- Contact person for our customers in all matters (technical/commercial)
- Ensuring company quality standards at all times

Your profile

- Graduate Engineer in Process Engineering or Mechanical Engineering or comparable education
- Minimum 5 years of professional experience in international project management of investment projects in plant construction / engineering
- Strong communication skills; decision-maker with a solution-oriented attitude
- Flexibility and commitment
- Business fluent in English (written/oral), further language skills are an advantage
- Willingness to travel abroad (ca. 10%) : Asia/Middle East/South America/USA/Europe
- Work permit for Switzerland available
- Resident nearby Basel/MuttENZ

What you get

- Exciting, challenging and varied tasks
- Committed and dynamic team
- Advantages of a medium-sized company
- Attractive employment conditions in a modern working environment

We look forward to receiving your application (letter of motivation, CV with photo, references) at jobs@bertrams.ch
